

*John and Shirley's first love was and still is the Appaloosa breed, they started on the board with the Quebec Appaloosa Board in the early seventies. They both served as directors and John eventually as President, and Shirley as Secretary.

*Moved to the new farm in Ontario in 1977 and immediately got involved with the club as directors and secretary again, and John eventually President

*Shirley was nominated and eventually became a National Director as well

*Won the free breeding to First Secretary and bought a broodmare to breed to the first son of "Secretariat".

Produced a lovely big chestnut filly that they campaigned in the States.

*Made wonderful and great friends with some people on the board whom to this day still visit.
